

Air Cargo Transportation Baltics – Kazakhstan - China

TRANSBALTICA 2017

RAF-AVIA is a cargo and passenger airline based in Riga, Latvia and Frankfurt-Hahn, Germany. For more than 26 years we have been in the air carrying small and medium sized cargo and since September last year we are operating regional passenger flights. For all those years we have been in strong cooperation with Europe's largest air charter broker and logistic companies.

Key Facts

Connecting Baltic States with Asia

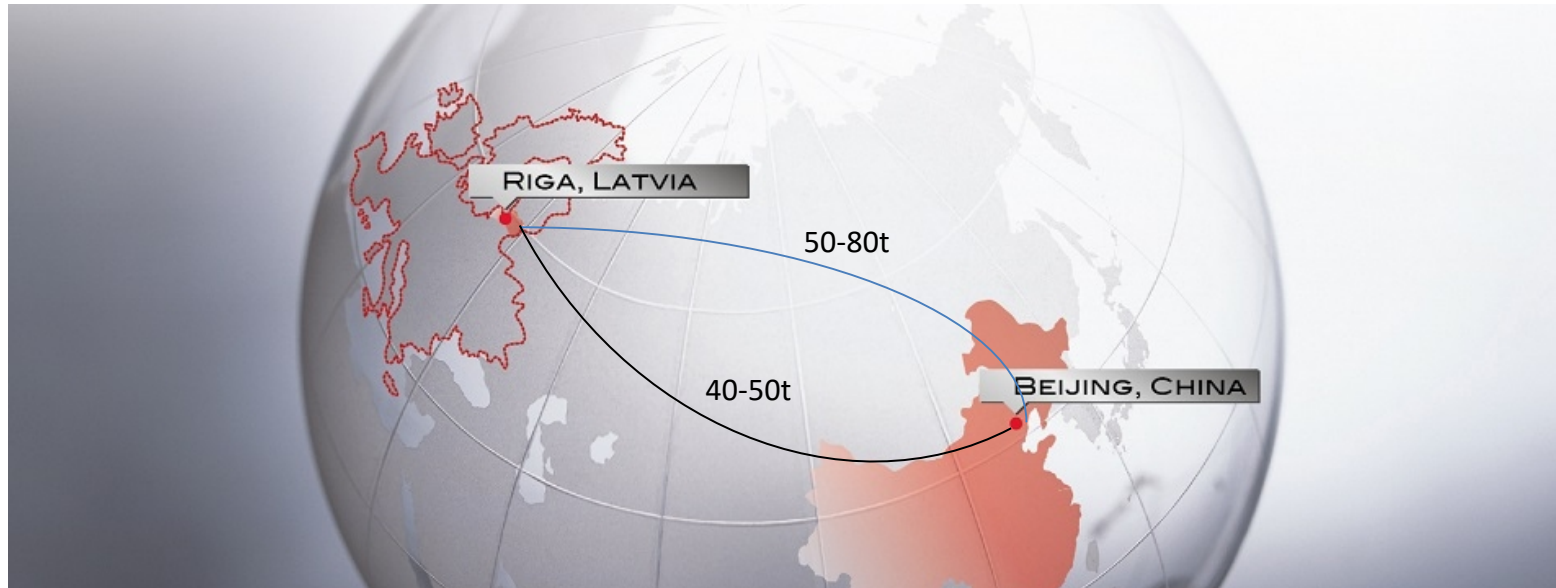

- Why ?
- Governmental agreements between China and Latvia, including agreement on air transportation,
- Considerable decrease of Latvian export to Russia,
- Export both ways,
- Geographical advantage of Latvia.

- Export from China - general cargo.
- Export from the Baltics - cosmetics, dairy products (10 Latvian dairy companies are certified to export their products to China), chockolate, green products, berries and IT products,
- Post,
- E-commerce.

Capacity

- From China to the Baltics 50 – 80 tons per week,
- From the Baltics to China 40 to 50 tons per week.

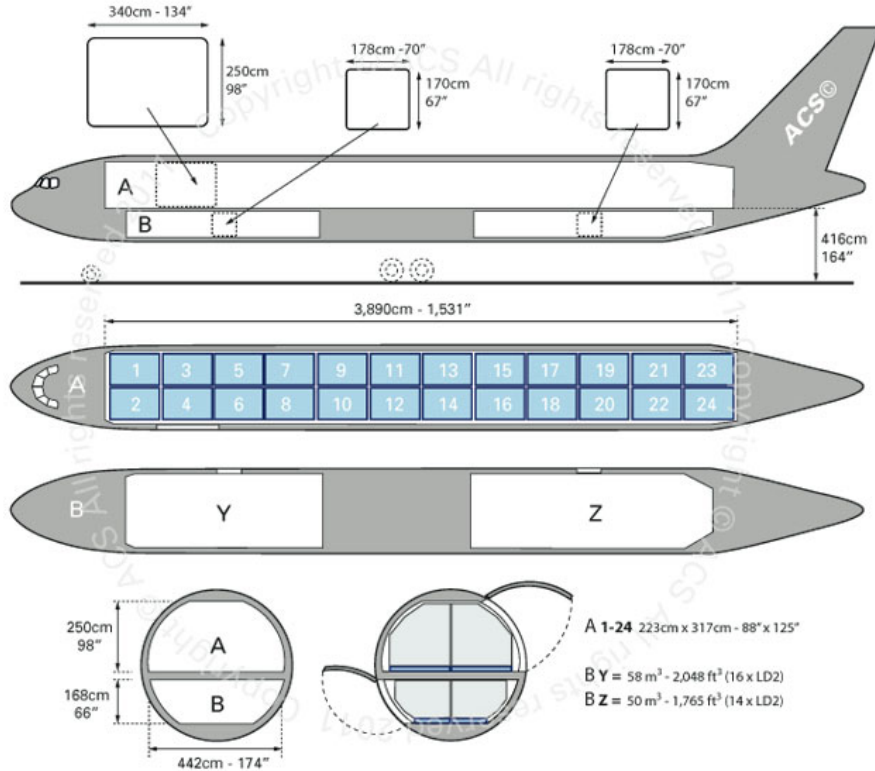

For the project to become true

1. Focal point – Riga airport,
2. Cargo consolidator,
3. Financial investments,
4. Carrier – A/S RAF-AVIA.
