

Today's office market and future locations for shared service centers in Riga

March 10, 2017

New Hanza City!

Office market today

Total A and B grade office stock in Riga 620 000 m²

Low vacancy. Below 5%

Annual rental activity ~30 000 m²,
but real take up below 10 000 m²

Real take up is equal to ~1 000 new
working places per year

During last 5 years only two
speculative office buildings has been
built – Place 11 and business center
Mukusala latest stage development

Approx. 27 000 m² of office buildings
under construction

Around 350 000 m² of new office
projects «on paper»

Several reasons – bureaucracy and caution

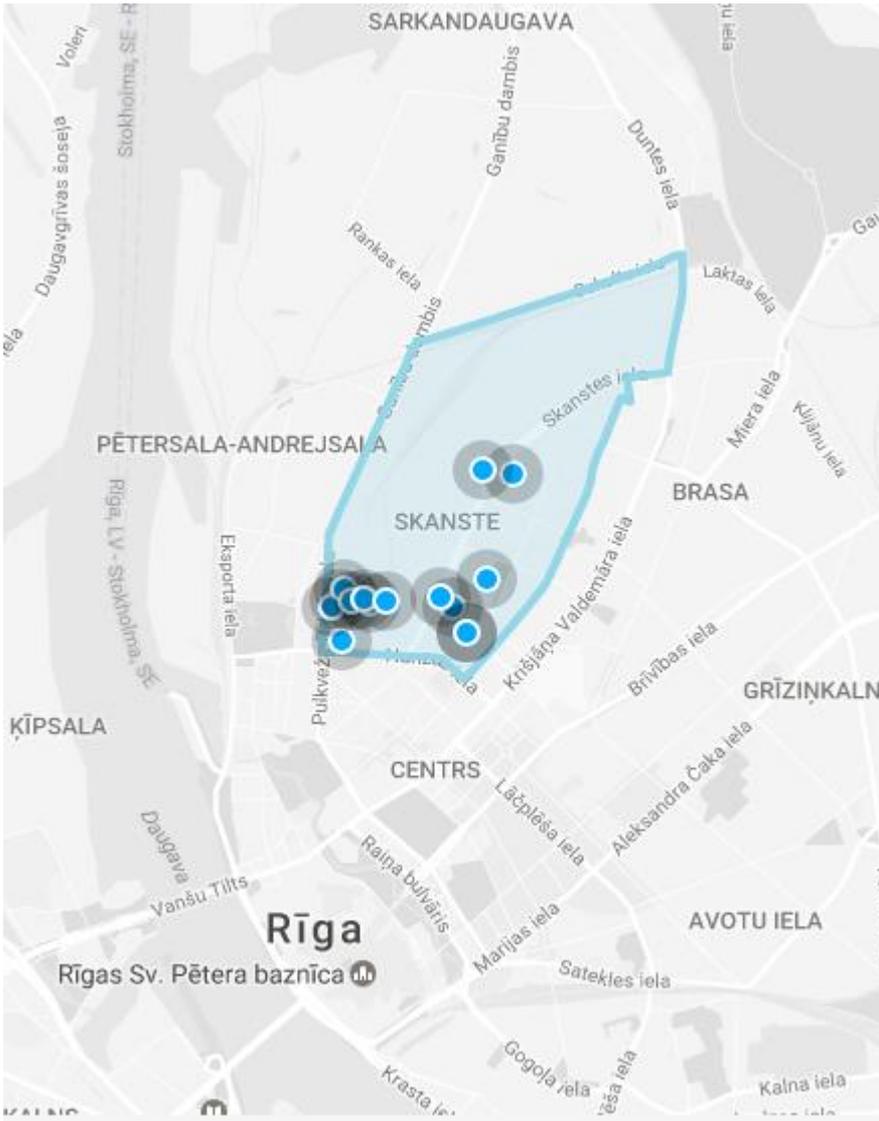

Several reasons – uncertainty

Skanste – new CBD

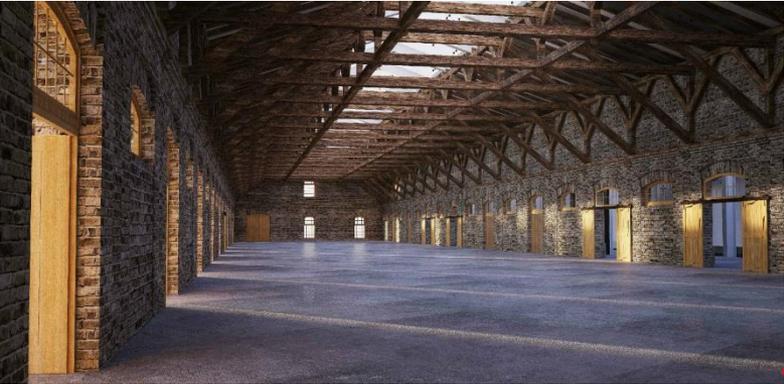

More than 20 large scale property or infrastructure development projects including:

- Office buildings;
- Residential buildings;
- Shopping center;
- Museum of Contemporary Art;
- Public parks;
- Multifunctional cultural center and conference / concert hall;
- Elite football education center etc.

Number of population and jobs: Today 8 300. In year 2024 more than 36 000

New Hanza City

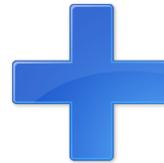

Sleeping beauty – shared service and business process outsourcing companies!

We have

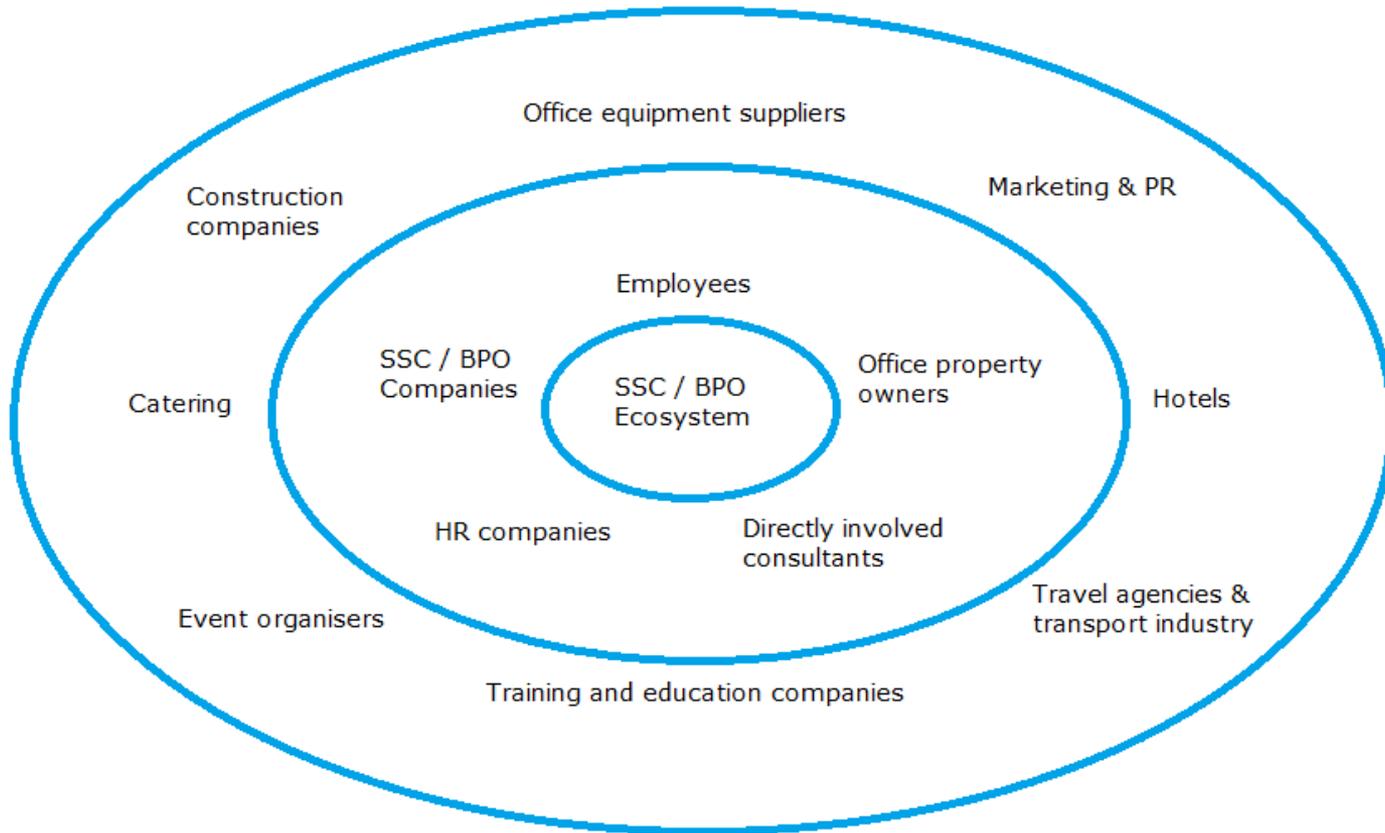

Potential

10 000 new working places in 3-4 years?

Who will benefit?

10 000 working places in SSC / BPO sector

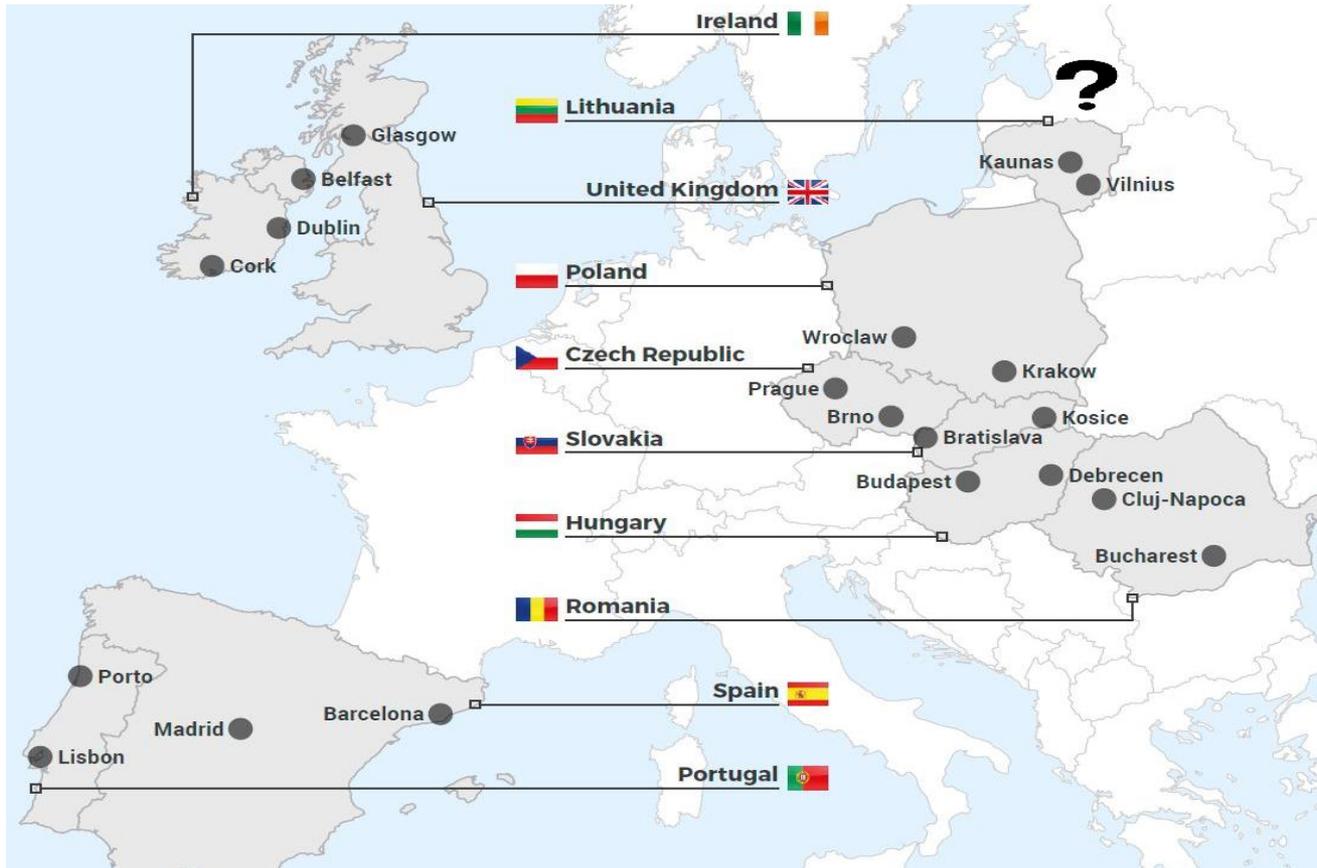

- Approximate annual net salary budget 110-120 m EUR
- Approximate annual employment tax budget 85-95 m EUR
- Annual property related payments including office rent, VAT and service charges 20-25 m EUR
- Other costs (office running, outsource consulting, events, business travels etc.) 25-30 m EUR
- Initial investment (office buildings and equipment) 150-200 m EUR

Total annual incoming cash flow for country 240-270 m EUR

+ initial investment 150-270 m EUR

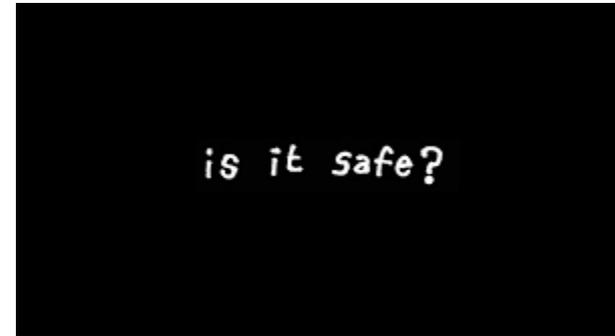

Is it enough to work on it?

Challenge Nr.1 – we are not on the map!

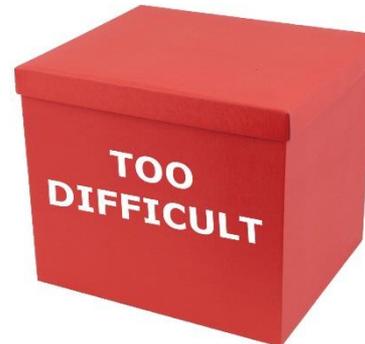

Challenge Nr.2 – not enough info about SSC / BPO locally!

WHAT
IS
THIS?

HOW
DOES IT
WORK

Thank you!
